

Kit moto

Bikes Kit

LLS racing propone dei kit viteria in Ergal per alleggerire e/o personalizzare la propria moto. Sono suddivisi in kit specifici: carter, carena, tappo serbatoio, supporto sella, cupolino, targa, terminale di scarico, e sono disponibili in tutti i colori di nostra produzione.

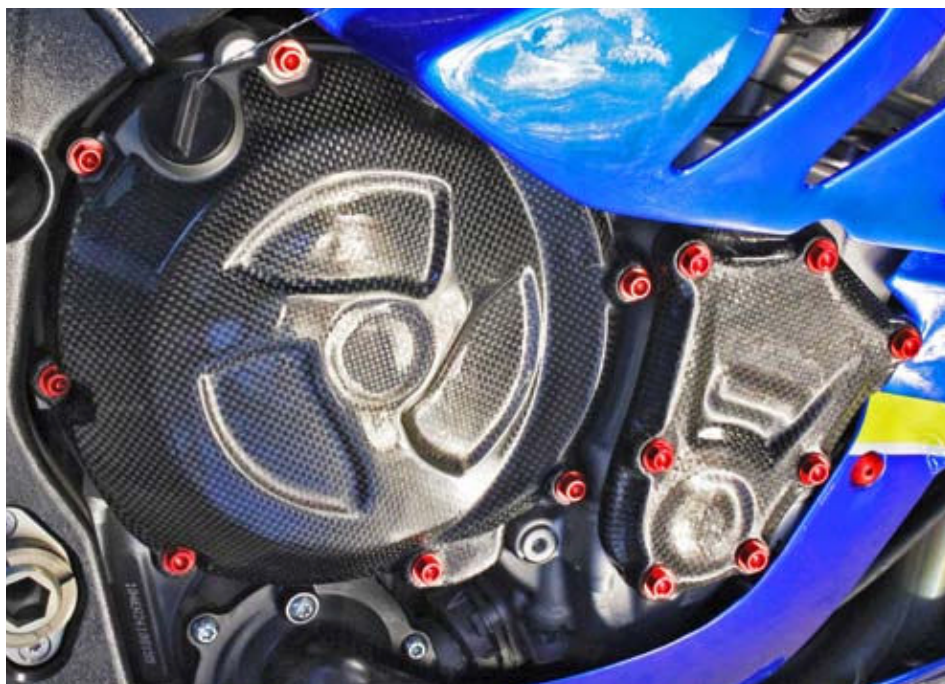

I kit pronto uso sono di rapida installazione, si sostituiscono alla viteria originale. Per le coppie di serraggio fare riferimento alla tabella di pagina 7. Ulteriori specifiche tecniche sono consultabili nelle pagine precedenti. Se ne consiglia l'utilizzo solo per le parti meno sollecitate o comunque non strutturali.

LLS RACING offers Ergal screw kits to lighten and/or customize your own bike. There are specific kits for : crankcase, fairing, gas cap, saddle support, windshield, plate, exhaust terminal, all available in various colours. Kits can be quickly set up, replacing original screws. For tightening torques refer to Table on page 7. Further technical specifications are available in previous pages. Use is recommended only on less stressed parts or anyway not structural.
